An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Replace the preliminary amendment of 01 December 2003 with the following paragraph

--This application is a continuation of copending application number 09/868,346 filed on December 20, 2001, now abandoned, which is based on International Application PCT/NO01/00039, filed on 05 February, 2001, which designated the U.S., claims the benefit thereof and incorporates the same by reference.--

At page 4, line 16 insert --BRIEF DESCRIPTION OF THE DRAWINGS--.

The preceding amendments correct only minor typographical errors.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or suggest that adding the hard binder as a foam to the warm mix of aggregate and soft binder allows the easier formation and better properties disclosed in the instant invention. The teaching of Clarke et al are limited to the improved coating of raw aggregate observed with the use of a foamed asphaltic binder. There is no suggestion therein for use with a warm mix.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
